

# The Aladdin System-

## How does it work?

A regular game cartridge contains four main components:

Only one of these components contains the actual game, this is the Game ROM chip. The others are the same from one game to the next.

The Aladdin system allows this Game ROM chip to be interchangeable, by building it into a separate Compact Cartridge that can be plugged into the Deck Enhancer.

This makes the Compact Cartridges much cheaper to produce than a standard game cartridge, since they only contain 1 of the 4 major components of a standard cartridge. And when a Compact Cartridge is connected to an Aladdin Deck Enhancer it allows the game to function with all capabilities of a standard cartridge.

### IMPORTANT PRECAUTIONS

We recommend that you take a 10 to 20 minute break for every 2 hours of play. Also to avoid eye strain, play the game at a reasonable distance from the T.V.

- DO NOT** touch the connectors or get them wet or dirty.
- DO NOT** clean the game case with benzene, alcohol, paint thinner or other such solvents.
- DO NOT** store the game in places that are very hot or very cold.
- DO NOT** hit it or drop it or attempt to take it apart.
- DO NOT** use on a FRONT OR REAR PROJECTOR TV. Projection TVs can be permanently damaged by displaying stationary screens or patterns, eg. a game in pause mode.

Camerica will not be held liable for any such damage. It is not a defect of the game, any stationary image can cause such damage.

Please contact your TV manufacturer for more information.

## DECK ENHANCER™

### Instructions

This pack contains:

**Aladdin Deck Enhancer**

**Aladdin Compact Cartridge -  
Dizzy the Adventurer**

**First, connect the Compact  
Cartridge to the Aladdin Deck  
Enhancer.**

Push the Compact Cartridge all the way in until it 'clicks' and the back edge lines up with the back of the Aladdin Deck Enhancer - see diagram.

Then insert into Deck, as you would a standard cartridge. Turn the Power ON, the game will begin. Play the game according to the instructions provided with that particular game, Dizzy the Adventurer instructions are included in this pack. When you want to play a different game simply pull the Compact Cartridge out of the Deck Enhancer and connect a different Compact Cartridge, each sold separately.

### Troubleshooting...

#### Getting the Game Started

When you turn the power ON you may find that the screen FLASHES on and off continually. If this happens try the following tips...

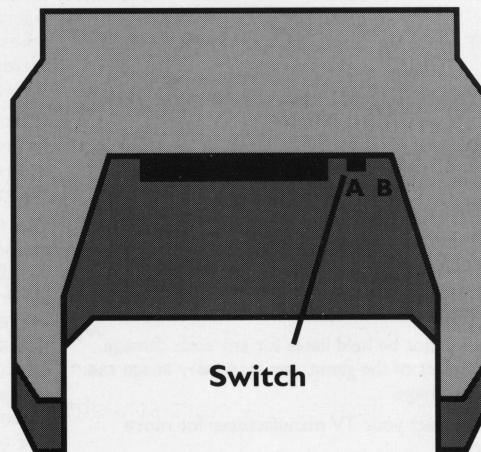

- Wait for 10 seconds while the screen is flashing. Sometimes it takes a little while for the game to "catch"
- Turn the power OFF, remove the game, re-insert, and try again. This will clean the connectors a little and may help.
- Press the RESET button

#### Compatibility Switch

If you have tried these tips a few times and the game still does not start you should move the Compatibility Switch to Position B.

To do this...

- Turn the power OFF, remove the Aladdin Deck Enhancer, and unplug the Compact Cartridge. You will see a small black switch on the Aladdin Deck Enhancer. This is located in a recess just to the right of the connector that the Compact Cartridge fits into.
- Slide the switch to the right, to Position B. Use your finger or a ball-point pen to reach the switch which is recessed, only the tip is visible. Reconnect the Compact Cartridge and try again. If the game still does not start straight-away see "Getting the Game Started" again.

If you have any further problems, or the switch does not help...
