Mic Unit

Controller Plug

Insert the Controller Plug into Slot B on the front of the Nintendo GameCube. Make sure the plug is fully inserted into Slot B up to the line on the top of the card.

When inputting voice or sound, make sure the top of the microphone is pointed at the sound source. Don't quickly repeat voice commands—it can cause the game to misunderstand you. Always speak clearly and wait a few moments between speaking voice commands.

The microphone button must be pushed when inputting sound. Review the game control section of the manual for instructions.

If the game does not respond to the microphone, check the following:

- Make sure the Controller Plug is inserted all the way into the slot.
- Review the game control section of the manual to be sure you are inputting sound at the correct time.
- Make sure you are talking loud enough, or that the top of the microphone is close enough to the source of sound.

NOTE: Excessive or loud background noise may make the game respond to the microphone. If necessary, move to a quieter area.

BRIGHTON

Twila

Brighton and Twila—the sun and the moon—watch over Mario Party World from the sky and host the best parties. The two celestial party animals have always been good friends.

That is, until the day Brighton asked Twila, “Who’s more impressive, you or me?”

Brighton and Twila argued furiously about who was more popular and impressive. The sky thundered with the fury of their cataclysmic squabble!

Mario and his party-hearty friends tried to get them to make up, but nothing they said could settle the spat in the sky. That’s when Mario came up with a brilliant plan to harness the power of the Stars to end the feud!

They decided to throw a massive Mario Party to collect Stars and fill the great Star Bank! Determined to end Brighton and Twila’s feud, they started partying right away.

...But will the power of the Stars be enough to end the furious feud?

Harder Questions Mean More Points

Difficulty

Quiz questions range in difficulty from one to five stars. To attempt harder questions, you must first answer easier questions in that category. The more difficult the question, the more time you will have to answer it. Any time remaining on the timer when you get the right answer will be converted into points and added to your score.

Panels

Special panels are hidden throughout the game board and may appear when you choose a question. Each panel has a different effect. For example, a Mushroom Panel gives you the opportunity to earn double the usual points if you get the right answer on the next question.

Bowser Takeover

Bowser has been known to take over Speak Up! The nasty villain may turn things upside down. If you're lagging behind the competition, you may be able to find a way to use Bowser's crazy takeover to your advantage.

Character Name Answers

Some questions will ask you to identify a character and say their name into the Mic. To brush up on the names of the characters in Mario Party, watch the character introduction at the very beginning of Speak Up.

Pause Screen

Press START/PAUSE during the game to reach the pause screen. From there, you can press the Y Button to quit Speak Up.

Hints

If you get stumped by a question and don't know the answer, say "give me a hint" to get a hint. Hints are only available the first time a question is asked.

★ SPEAK UP

Speak Up is a game show that's played with the sound of your voice. When two players are playing, the game will last 10 questions. With three players, the game will last 15 questions. With four players, the game will last 20 questions. Whoever has earned the most points at the end wins!

How to Play

Pick a Category

There are five quiz categories to choose from:

Picture Quiz **Counting Quiz**
Memory Quiz **Comparison Quiz**
Variety Quiz

A Question Is Asked

Whoever chooses the quiz category will be given the first chance to answer the question. Answer correctly to earn points. The points you earn depends on how much time remained on the timer when you answered.

If you answer incorrectly...

Lightning Round

If the first player answers incorrectly, the remaining players get a chance to answer the question by pressing the A Button. Whoever presses the button first gets to answer. If the next person also answers incorrectly, the game will move to the next question.

The Player Icon shows who can answer the question.

This icon indicates when you use the Mic.

★ PARTY MODE RULES

In Party Mode, whoever ends the game with the most Stars wins! To get Stars, you have to win mini-games and earn coins. You can then spend your hard-earned coins to buy precious Stars!

Everyone will hit a Dice Block to determine the player order.

Hit the Dice Block to see how many spaces you'll move. If you want to use an Orb, be sure to do it before you hit the Dice Block.

Trigger an event, depending on the type of space you stop on. See pages 16-20 for information on spaces and Orbs.

When all the players have taken their turn, everyone will play a mini-game!
See page 21 for more information.

This is how a turn is played. The time of day changes every three turns. After the set number of turns have been played, the game will end and a winner will be announced.

TURN

Before the last five turns, a special event will add a major new game rule to mix things up. You never know what it'll be!

If you chose to play "With Bonus," three bonus Stars will be handed out at the end of the game. These are the bonus Stars you can win:

Mini-game Star: awarded to whoever won the most coins in mini-games.

Orb Star: awarded to whoever used the most Orbs.

Action Star: awarded to whoever stopped on the most ? Spaces.

And the Winner is...

Once all the Stars have been tallied up, a winner is announced. All of the Stars are then deposited in the Star Bank.

★ GAME SCREEN

Dice Block

Hit it to move the number of spaces shown. The Dice Block is normally numbered from 1 to 10.

The background color behind the character portrait changes depending on the color of the space you stopped on.

During a Team Match, the background color indicates your team color.

Current standings are determined by the number of Stars each character has. For example, a player with 1 Star will be ahead of a player with just 99 coins.

★ SPACES

Blue Space

Stop on one of these to get coins.

Red Space

You'll lose coins if you stop on one of these.

Green Space

Stopping on one of these spaces will trigger an event.

Either stop on the Rare Mini-game Space, or call it quits early to keep the mini-games you've earned. You will then be able to play them in Mini-game Mode. If you end the game without walking over the edge of the board, you may win bonus Stars depending on how well you did. Brighton will give you Stars in exchange for any coins you've collected and store them in the Star Bank for you.
