All have:

- YOU control defender

To select ANY defensive formation:

1. Choose FORMATION (press NUMBER key corresponding to PLAY NUMBER in playbook.)

HOW TO WIN!

Football isn't just a game of knocking heads! *Strategy, finesse, and good timing* are essential to winning. You'll find that *PASSING* is *both* the hardest thing to learn about football and the indispensable key to victory!

TO BE A WINNER:
PRACTICE THE PASSING GAME!
(See instructions: "The Art of Passing")

Remember the 5 steps to ENTER any pass play.

1. Press PASS key.
2. Pick ALIGNMENT.
3. Pick RECEIVER.
4. Select ZONE.
5. PRESS ENTER.

Practice until you can coordinate the HIKE & FADE BACK steps. When this and your timing on passes become second nature, you're *way ahead of the game!*

REMEMBER THESE TIPS:

STRATEGY:

Offense—Don't be in too much of a hurry to score! Go for the first down to maintain possession! Learn your playbook and use it wisely!

Defense—Be alert to move your "control" man as necessary! Don't be afraid to go for the interception! Use your formations effectively!

FINESSE:

Offense & Defense—Practice dexterity with the controls! Keep your eye on the screen but be ready to use the right buttons! The Move Player Disc is crucial—learn to use it well!

GOOD TIMING:

Offense—Running, passing or kicking—timing makes the difference between gain or loss.

Defense—Coordinate the movements of your "control" man (defensive captain) with the rest of your defenders. When you "red dog" or "blitz", you're taking a chance!
