WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION 2 FORMAT DISC:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

ZEONIC FRONT

EARTH FEDERATION

The RX project produced the high performance mobile suit Gundam. Will it be enough to save the Federation from the brink of defeat?

RX-78-2 GUNDAM

This is the Federation's ultimate fighting machine. The first mobile suit equipped with beam weapons. It is the most versatile model of the RX series.

	RGM-79 GM	This is the mass-production version of RX-78. Although complete with a core block system, this model was stripped of all nonessential equipment.
	RX-77 Guncannon	A medium range artillery mobile suit designed to support RX-78 Gundam. It is equipped with a core block system.
	RX-75 Guntank	A long range artillery mobile suit designed to support RX-78 Gundam. It is equipped with a core block system.
	Type-61 Tanks	A double turret tank. It was the mainstay weapon of an earlier era. After the introduction of the Minovsky Particle, mobile suits now rule the air, land, space, and sea.
	Fighter Copters	Used for scouting and reconnaissance operations. Their airborne attacks are deadly.

UPGRADING MOBILE SUITS

You will have the option of upgrading or switching to a new mobile suit as the game progresses. Remember to always choose a mobile suit that is best suited for your mission objectives and conditions.

MOBILE SUITS

ZEON FORCES

The development of Zaku mobile suits gave Zeon forces a tactical edge over the Federation. Try to maintain this advantage and win the war!

MS-05   ZAKU I

Zaku I is the first mobile suit to experience actual combat. The MS-06 series was developed based on this series.

MS-06F   ZAKU II

Zaku II was heavily mass-produced for its versatility. There are many varieties of Zaku II depending on the production lot.

MS-07B   GOUF

Another variation of the Zaku. This mobile suit has been strengthened for ground combat. It is armed with a heat rod, machine gun, and other weapons.
MS-09   DOM

This highly maneuverable yet heavily armed mobile suit hovers with the help of thermonuclear jet engines.

OTHER CHARACTERS

Here are some of the main players in the One Year War.

PRINCIPALITY OF ZEON

CAPTAIN GARMA ZABI

An heir to the Zabi Dynasty. He commands the Earth attack force from California Base. He graduated from the officer's academy with Char Aznable.

LT. COMMANDER CHAR AZNABLE

Also known as "The Red Comet," he is the Zeon force's ace pilot. He always wears his signature helmet.

LT. RAMBA RAL

Also known as "The Blue Star." He is a seasoned veteran who specializes in guerrilla warfare.

THE BLACK TRI-STARS

This team's members are Captain Gaia, Mash, and Ortega. They have an unparalleled and unique attack formation called the "Jet Stream Attack."

CAPTAIN M'QUVE

In charge of Earth's largest mining base, Captain M'quve reports to Rear Admiral Kycilia Zabi. He is an avid antique collector.

EARTH FEDERATION

AMURO RAY

The pilot of the Earth Federation's Gundam. His war record is unmatched, and he is also known as the "White Ghost" to many Zeon pilots.

Lieutenant Sandra

Lieutenant Sandra

Age: 28.
 A bit of a wild woman, Lieutenant Sandra isn't much for presentation. She seldom wears her full uniform, and in combat, she sometimes doesn't even bother wearing her helmet!

Technical Chief Migaki

Technical Chief Migaki

Age: 37.
 The corps' technical chief. His excellent technical skills sent him along an elite career path, but he soon grew tired of the power struggles of the Zabi family.
 His request for assignment to the corps freed him from faction politics and now his old colleagues call HIM weird!

EARTH FEDERATION

Lieutenant Agar

 The Federation's youngest pilot, Lieutenant Agar is a fierce and hot-blooded warrior.
 Distinguished as an artillery officer, he is also a skilled mobile suit pilot. However, when his rage gets the better of him, he tends to get careless.
 He despises the Principality of Zeon, and he fights for the day when Earth will be free of them at last. He stands in the way of Fenrir domination.

Lieutenant Agar

049

Chief Petty Officer Manning

Chief Petty Officer Manning

Age: 35.

A seasoned veteran whose skills range from reconnaissance to offensive missions, Chief Manning has never failed to accomplish each of his objectives on any mission.

A survivor of a unit based in the Gobi Desert, Manning served as a pilot for a short time before returning to M'quve's headquarters.

As soon as he heard about the Fenrir Corps, he requested an immediate transfer. He has served on the team ever since.

Lieutenant Renchef

Age: 29.

Although he is a very skilled and intelligent soldier, his brutal personality has alienated him from every unit on which he served.

As a result, he fought for a number of different units before being assigned to Fenrir. A talented pilot, Lieutenant Renchef prefers direct, hand-to-hand combat in his mobile suit.

Lieutenant Renchef

Petty Officer Lee Swaggard

Petty Officer Lee Swaggard

Age: 27.

Originally from Side 1, Swaggard emigrated to Side 3 so that he could fight against the Federation forces. He was promoted to Petty Officer for valiant service in the One Week War.

A man of few words, he carries out his duties faithfully and without question. He is quite adept at reconnaissance and offensive tactical duties. He looks about 10 years older than he really is.

Lieutenant Sophie Fran

Lieutenant Sophie Fran

Age: 24.

Her beauty belies a pilot of high caliber and cool head. Don't let her fool you: she has looks to die for, but if you fight her, you just may.
PROLOGUE

Over half a century has passed since overpopulation forced humanity to colonize space. Now, hundreds of gigantic space colonies orbit Earth and the vast majority of mankind has come to call these places home.

It is the year Universal Century 0079. No longer willing to bear subjugation by the bureaucrats of Earth, the people of Side 3 declare independence and announce the formation of the "Principality of Zeon."

To demonstrate their determination and resolve, the newly christened nation implements "Operation British" by dropping a space colony on Earth.

Since then, waves of secondary attacks have given Zeon a tactical superiority over the Earth Federation for the control of Earth territories...

...This is an elegy for the soldiers who fight continuously on the frontlines for freedom...

Ensign Niki Roberto

Ensign Niki Roberto

Age: 21.
  Assigned straight out of the academy, he remains an anomaly in this group of skilled veterans. His teammates call him "waterboy" and describe him as an "experiment within an experimental team." Even so, his combat skills are well above par.

Ensign Charlotte Hepner

Ensign Charlotte Hepner

Age: 19.
  Assigned to the Midnight Fenrir Corps straight out of the Zeon Military Academy. Her highly competitive nature makes her stubborn in the best of times.
  Though assigned to Fenrir as a pilot, Charlotte serves as the mission control operator in the initial stages of many operations.

Master Chief Petty Officer Matt Austin

MCPO Matt Austin

Age: 41.
  A seasoned soldier, he has served Zeon from the early days of Zeon's Self-Defense Force. Outwardly gruff and abrasive, Master Chief Austin is a good man at heart.
  Much to his chagrin, his fellow soldiers have taken to calling him "Old Timer." A skilled veteran with a Zaku I, Austin doesn't like to pilot any other mobile suit.
  Master Chief Austin served as assistant and advisor on Lieutenant Roher's first mission. The two have worked together ever since.

Lt. Commander Garret Schmitzer

Lt. Commander Garret Schmitzer

Commander of the Midnight Fenrir Corps. Age: 35.

A career soldier, Lt. Commander Schmitzer fought as a guerrilla operative before the One Year War.

Once mobile suits went on-line, he quickly distinguished himself as an outstanding combat pilot as well. However, the injuries he received in Operation British cut his piloting career short.

Under his recommendation, Rear Admiral Kycilia Zabi formed the Fenrir Corps. Because of his extensive tactical knowledge and combat experience, Lt. Commander Schmitzer was given command of this elite fighting force.

A cool and composed commander, he leads this diverse group of warriors with the skill befitting a man of his experience.

Lieutenant Lou Roher

Lt. Lou Roher

Age: 25.

Graduated top of his class from the Zeon Military Academy. Although he remains distant and aloof towards his teammates, his cool decision-making skills and analytic prowess are unparalleled.

Generally a stoic and silent soldier, he has voiced some complaints about his assignment to the Fenrir Corps.

He has served with Master Chief Matt Austin since his first mission out of the academy.
START MISSION

MISSION BRIEFING

At the beginning of each mission, you will receive orders from the commander. He will give a detailed explanation of the mission. Pay attention and use this information in formulating your battle strategies.

I see you're all here. Now, our mission is to descend ahead of the main forces and secure an airbase as a beachhead for the invasion of the North American region.

It is Universal Century 0079. March 11. The Second Earth Descent Operation has begun. Our objective is to bring the North American territory under our control.
* Go to "MISSION" in the BRIEFING: MAIN SCREEN to read your mission objectives.

BRIEFING EXAMPLE

OBJECTIVES

MISSION COMPLETION
Seize control of base headquarters.
MISSION FAILURE
All team leaders are destroyed.

The key to this operation is speed. We must not give the enemy a chance to organize. This will be your first battle as The Midnight Fenrir. You must improve on your performance during basic training. Over.

Receive a wide variety of mission orders, such as the destruction or siege of enemy bases, and protection of allied forces.

TARGETS

Our first objective—take over the base headquarters. Second objective—eliminate the base's defense troops. And third objective—seize the control tower.

Confirm the number of targets.

TYPES OF ENEMIES

There are numerous lookouts situated at the base. If you're spotted by a lookout, you'll divulge our location, and the enemy will call in their defense troops. It's vital that you destroy those lookouts first.

Select appropriate weapons based on the information provided.

TERRAIN

Our intelligence has located the enemy headquarters. It's here.

Determine the location of your enemy to achieve speedy strategic superiority.

WHO ARE THE MIDNIGHT FENRIR CORPS?

Lt. Commander Garret Schmitzer is the founder and leader of the Fenrir Corps. Armed with the latest experimental technology, this corps works exclusively with mobile suits.

The corps was founded with approval from Rear Admiral Kycilia Zabi, who saw great potential in mobile suit warfare. The Fenrir Corps is comprised of an elite group of tactical commanders, attack teams, and mechanics.

● WEAPONS

MAIN WEAPONS

Each main weapon has different characteristic in accuracy, power, and reload time, etc. A list of each weapon's characteristics are charted below. Select the weapons that best suit the mission's objectives and conditions.

Type of Weapon	Characteristics
Machine Gun	Rapid fire and quick reload are its strengths, but its range and power are average.
Bazooka	Offers high power and long range, but it is harder to hit moving targets and slow to reload.
Rifle	Offers the longest range and excellent accuracy when used in conjunction with the "take aim" feature.
Shotgun	Each round damages multiple enemies. It causes more damage when shot at close range, but its kill zone becomes smaller.
Missile Launcher	Launches guided missiles. Velocity is slow, but it has the impact power of a bazooka round.
Beam Rifle	Offers the highest power. It can pierce through any armor.

TAKE AIM

Pay attention to the white circle that appears over the target when you lock-on. The hit accuracy increases as the circle becomes smaller. For highest accuracy, pull the trigger when the circle is at its smallest. (Note: Some weapons don't follow this convention.)

RELOAD

There are two types of reload.

⚜ Auto-Reload........... Reload ammunition automatically when it runs out.

⚜ Manual Reload........ Switch magazines manually. This takes more time than Auto-Reload. (L2 + R1 buttons)

● MISSION EXECUTION

① Reconnaissance

Search for enemies using your sensors. Be sure to use a sensor that is appropriate to your environment.

② Switch Between Teams

You can switch between teams by using the ⬆⬇ directional buttons and operate each team directly. The team that is not under your control will automatically continue on according to its set route and battle codes.

③ Orders to Allied Teams

Coordinate your teams by giving orders. Combine your efforts for maximum effect.

④ Orders to Allied MS

Give formation orders to mobile suits on your team.

DECOY TACTICS

When faced with the Earth Federation's overwhelming numbers, send an advance team of heavily armored units to engage the enemy. While the advance team preoccupies the enemy, direct your main attack force, made up of more maneuverable mobile suits (like Doms) to ram through the center of the skirmish and force its way to the mission target.

USE OF BATTLE CODES

PINCER STRATEGY

This strategy involves attacking the enemy from two sides. Use the Battle Code to have one team attack first. While the enemy is attacking that team, have the other team attack from behind. What you may lack in numbers, you can make up for with strategy.

TEAM COMMANDS

DEFEND TEAM LEADER
Always defend the team leader. Once the team leader is destroyed, that team is incapacitated. Let the other mobile suits on the team take point positions. If you encounter an enemy, order your other units to attack with the Team Formation commands (See p. 029) and pull your leader back. Remember, never turn the team leader's back to the enemy while retreating.

□ **Team Movement** □

ATTACK

FIRING ACCURACY

Your firing accuracy varies according to the target distance and condition of your mobile suit. Check the accuracy displayed on the lock-on sight before taking any action. Shooting while in motion reduces your accuracy, so try to snipe the enemy from their blind spot.

FIRING ACCURACY

The circle that moves within the lock-on sight is the accuracy indicator. The smaller the circle, the higher your hit ratio is.

SUPPORT EQUIPMENT

Many support equipment disrupt enemy sensors or blocks their view, but be careful that you don't get affected by it yourself. For example, switch to sonar or thermal sensors before using a radar pod.

When setting an Advance Code, all points after your setup will change to that setting. After having set Advance Codes once, any new changes would take effect up to the point where a previous Advance Code was set.

BATTLE CODES

Choose an Operation Point and set a Battle Code. When a team arrives at an Operation Point with a Battle Code assigned, it will remain there on standby until you launch it (L2 + ⊗ button is the shortcut. See p. 028). Set the same Battle Codes on each route to coordinate your teams.

CONTROL TOWER

Begin your assault on the control tower. You will reach the mission objective, the air base, once you clear the forest. Switch the sensor to radar again and close in on the control tower while destroying any opposing forces. Force the control tower to surrender.
⑧

ATTACK FINAL TARGET

You will receive an emergency transmission from your operator when you reach the final destination. Contrary to previous intelligence, the enemy Big Tray is on standby. Find the ship's blind spots and attack from both sides. The mission is complete when you silence Big Tray's cannons.

Base Secured!

⑨

MISSION COMPLETE!!

WATCHTOWERS

After moving through the buildings, you will come out into a more open space. There are several watchtowers and tanks waiting for you.

Be careful not to get caught in the middle. Switch between teams to take out the enemy from both sides.

(6)

SWITCH SENSORS

Switch to thermal sensors before going into the forest. In environments where there are many obstacles, radar detection is spotty at best. Don't leave your mobile suits vulnerable to surprise attacks. Be sure to switch your sensors according to the environment.

(7)

INFORMATION

Confirm important information about the mission. Consider the information carefully when making setup decisions.

ADVICE

Listen to your team leaders here. They will provide useful information and their current condition. If you wish to become an outstanding commander someday, you'd better lend your men an ear.

AIMING

Even if you are out of range, you can place the lock-on sight onto an enemy to see its information.

You can also throw grenades or call for backup Support Attacks.

COMBAT

Move out between buildings, put your sight over the enemy, and start closing in. The enemy are Type-61 Battle Tanks.

The sight locks-on automatically when they come into range. Press down the R1 button for rapid fire. When you take down one enemy, move on to the next one.

④

SWITCH TEAMS

After wiping out the enemy, try switching to your other team with the ⬆ ⬇ directional buttons. Switch between teams often to coordinate them better.

⑤

MISSION FLOW

Let's briefly review the flow of your first mission, MISSION 01. Learn the steps involved in executing your mission and apply them when you play the actual mission.

MOVEMENT

After speaking to command control, get moving. There are no enemies in this area, so advance quickly by using the left analog stick while pressing down the L1 button. There is a time limit, so don't waste any time looking at the scenery!

1

TURN

Use the right analog stick to move the lock-on sight to the desired direction (in this case, to the left). Now, move the left analog stick up to turn around. Manipulate the camera and movement controls together to make smooth turns.

2

RECON

Before you take your next turn, take a look at your MSD (Multiple Sensor Display). There are enemies behind the building, but their Alert Level is blue, meaning they have not detected you. Let's wipe them out. You can also get information on enemy units by locking-on to them.

♦ **BATTLE CODES** ....Launch Battle Codes set in Route Setup.

SENSORS (SEE P. 024)

♦ **OFF** ....Turn off sensors. Rely on visual contact.

♦ **RADAR**..Switch to radar.

♦ **THERMAL** ....Switch to thermal sensors.

♦ **SONAR**..Switch to sonar.

♦ **SENSITIVITY** ....Change sensor sensitivity.

SUPPORT

Select a support equipment and use it by pressing the ◎ button.

※ This option displays the Menu Edit screen from Support Equipment Setup. (See p. 014)

ADVANCE CODE

Change the Advance Code of the present team in operation. (See p. 018)

MOVE

Start and stop the movement of the present team in operation.

ATTACK

Initiate or stop the attack of the present team in operation.

RALLY

Rally the allied mobile suits around their team leader.

NORMAL ATTACK When the target is far away: `R1 button`

Attack the enemy with your main weapon. The weapon reloads automatically when the ammunition goes to zero.

MANUAL RELOAD

`L2 button + R1 button`
You can reload manually when your remaining rounds are low. This option is not available during lock-on.

PROXIMAL ATTACK When the target is too close: `R1 button`

Attack head-on with your proximal weapon. While proximal attacks are powerful, the enemy's counterblows are equally powerful. Watch out!

SUPPORT EQUIPMENT `◎ button`

Press the ◎ button to use support equipment, weapons, and attacks. (See p. 014, 025)

MOBILE SUIT OPERATION CONTROLS

WALK (SLOW) MOVEMENT

Left Analog Stick ⬆

Mobile suit moves forward.

Left Analog Stick ⬅ ➡

Mobile suit moves left or right while facing forward.

Left Analog Stick ⬇

Mobile suit steps back while facing straight ahead.

RUN (FAST) MOVEMENT — L1 button + Left Stick

Hold down the L1 button while moving to make the mobile suit run. Although your speed increases, you also become easier to detect by the enemy.

LOCK-ON SIGHT & CAMERA MOVEMENT — Right Stick

Move the lock-on sight and camera. The mobile suit moves in the direction of the lock-on. Use this in combination with the left analog stick to move quickly.

ALL TEAM COMMANDS

These commands apply to all teams in action. It is also good for pausing and reviewing the battlefield status.

MOVE — Halt all teams and put them on standby.
Activate all teams on standby.

SEMI-AUTO — Place all teams in Semi-Auto Mode. All teams move without player commands.
Turn off Semi-Auto Mode.

BATTLE CODES — All teams launch Battle Codes simultaneously.

SEMI-AUTO MODE

Teams in Semi-Auto Mode base their actions on their Advance Codes. They will advance according to the set route and codes without any direct player commands. The player can still launch Battle Codes and change Advance Codes.

SENSORS (RECON)

Utilize your sensors to locate any enemies along the way. Watch out for preemptive enemy attacks that could destroy your leader before you know what hit you.

Reconnaissance is key to avoiding damage. You can turn down the warning level by moving out of the enemy's sensor range.
※ Change sensors with the ◎ button.

Enemy MS (Squares)

RADAR

Covers a wide range, but ineffective against covered or sheltered objects.

THERMAL SENSORS

Detects heat sources even for objects in hiding. However, its range is narrow and your field of vision is slightly degraded.

SONAR

This passive sonar detects moving objects with sound waves. Ineffective against static objects.

MINOVSKY PARTICLES

These particles obstruct electromagnetic waves. At high concentrations, they can obstruct radar and all other types of sensors. Because of this, long range electronic warfare has become obsolete and mobile suits have become the main weapons in warfare.

SHORT CUT COMMANDS: SHIFT 2 (R2 button)

※ Type A configuration settings

This is used to make the team you command take certain formations. When the leader mobile suit locks-on or aims at a target, the others will take action. This can be used in semi-auto mode. The formations will not take effect in all situations.

TEAM FORMATIONS

ATTACK: R2 BUTTON + △ BUTTON

Order allied mobile suits to advance and attack.

RETREAT: R2 BUTTON + ✕ BUTTON

Order allied mobile suits to retreat.

SCATTER: R2 BUTTON + ◎ BUTTON

Scatter allied mobile suits. This prevents the team from bunching up in one area.

HALT: R2 BUTTON + ◎ BUTTON

Order allied mobile suits to halt.

PAUSE MENU

Press the START button during a mission to see the following commands.

⚜ **RETURN TO MISSON** ....Resume mission.

⚜ **ABORT MISSION** ..Abandon mission and redo from the Briefing Main Screen.

⚜ **RETRY** ....Start the mission over from the beginning.

⚜ **OPTIONS** ....Change game settings. (p. 006)

SHORT CUT COMMANDS: SHIFT 1 (L2 button)

LAUNCH BATTLE CODE: L2 BUTTON + ⊗ BUTTON

Launch Battle Codes for your own team (and all other teams with the same battle code).

※ This applies to TYPE A config settings.

MANUAL RELOAD: L2 BUTTON + R1 BUTTON

Reload manually. (Dispose of remaining ammunition and reload.)

※ Cannot be used during lock-on or reload.

FULL SCREEN: L2 BUTTON + L1 BUTTON

Turn the cockpit panel display on or off (Full screen).

SUPPORT EQUIPMENT

Use your support equipment by pressing the ◎ button. You can use this command even in the Semi-Auto Mode.

SENSOR PODS

Disrupt enemy sensors within a certain range. There are pods for each type of sensor: radar, thermal, and sonar.

SMOKE GRENADE

Produces smoke screens and clouds vision. It will disrupt lock-on for you and your enemy.

SUPPORT ATTACKS

Call Magella Attack or Dopp Units for Support Attacks. They attack any enemies you lock-on or aim at.

ADVANCE CODES

Pre-set the action priority of the teams that are working on their own or on Semi-Auto Mode with the following commands. (See p. 018)

▶▶▶ ATTACK

Advance at high speed, engage in battle when confronted by enemies, and return to route after defeating enemies.

Move at high speed. Priority to attack enemy.

▶▶▶ AVOID

Advance at high speed, avoid confrontations, and stay on route.

Move at high speed. Priority to route.

▶ ATTACK

Advance at low speed, engage in battle when confronted by enemies, and return to route after defeating enemies.

Move at low speed. Priority to attack enemy.

▶ AVOID
